- **Do not over or under fill the cover,** over filling will trap air under filling will cause slack in the cover resulting in a easy chew point for your pet please follow filling instruction.
- **Keep fabric clean by brushing dry fabric regularly with a soft brush/broom.** Hose occasionally with cold water, but do not combine the actions of brushing and hosing as this may abrade coating and impart a scuffed appearance to the fabric once dry.

- **Keep petrol, solvents, kerosene and other similar fluids away from the fabric**
- **Do not allow bird droppings, earth, sand or vegetable matter to remain in contact with the fabric**

- **To ensure that water repellence is fully retained after canvas has endured continuous outdoor exposure or been cleaned extensively, the canvas should be re-proofed with a water repellent compound such as Scotch Guard® or Bella proof®.**
- **While Coopers Pet cover is made from super tough materials and some products are designed to take punishment from your pet it should be treated as a teaching aid to assist your training of your pet, at no time does Coopers Pet covers guarantee against prolonged chewing of our products.**
- **Minor marks in the canvas are normal they come as part of the manufacturing of the product and in no way affect its performance**
